

Fund Update for the quarter ended 30 September 2024

This fund update was first made publicly available on 29 October 2024

What is the purpose of this update?

This document tells you how the Evidential Sustainable Targeted Factor Fund ("Fund") has performed and what fees were charged. The document will help you compare the Fund with other funds. Consilium NZ Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Fund invests in a diversified portfolio of small and medium capitalisation companies associated with global developed markets (excluding Australia and New Zealand), with an emphasis on companies that are expected to have higher returns. The Fund also takes into account certain environmental and social considerations. The Fund's currency position is unhedged.

Total value of the Fund	\$483,038,369
The date the Fund started	4 April 2024

What are the risks of investing?

Risk indicator for the Evidential Sustainable Targeted Factor Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data¹ for the 5 years to 30 September 2024. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	Not applicable
Annual return (after deductions for charges but before tax)	Not applicable
Market index annual return (reflects no deduction for charges and tax)	19.60%

The market index annual return is based on the annual return of the MSCI World SMID Index (NZD, gross return). Additional information about the market index is available in the 'Statement of Investment Policy and Objectives' document on the offer register at www.disclose-register.companiesoffice.govt.nz.

What fees are investors charged?

Investors in the Evidential Sustainable Targeted Factor Fund are charged fund charges. The Fund was not open in the year to 31 March 2024. As such, below are estimates of fees to 31 March 2025:

	% per annum of net asset value (including GST)
Total fund charges	0.62%
Which are made up of:	
Total management and administration charges	0.62%
Including:	
Manager's basic fee	0.62%
Other management and administration charges	0.00%
Total performance-based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from funds). See the PDS for the Evidential Sustainable Targeted Factor Fund on the offer register at www.disclose-register.companiesoffice.govt.nz for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Sam had \$10,000 in the Fund on 4 April 2024 (the date the Fund received its first contribution) and did not make any further contributions. On 30 September 2024 Sam received a return, after fund charges were deducted, of \$202 (that is 2.02% of the initial \$10,000). This gives Sam a total return after tax of \$157 for the period.
